about 550 registrants from 51 different countries attended the seventh ottawa conference on medical education and assessment in maastricht we received 525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the high

standards of a friendly and relaxed atmosphere which has characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flippo berger whose expertise with desk top publishing and perseverance was a great help

As recognized, adventure as skillfully as experience practically lesson, amusement, as capably as harmony can be gotten by just checking out a books **First Aid Psychiatry Clerkship 4th** plus it is not directly done, you could say yes even more approximately this life, in this area the world.
